

Configuring your integration from Shopify to SOS Courier

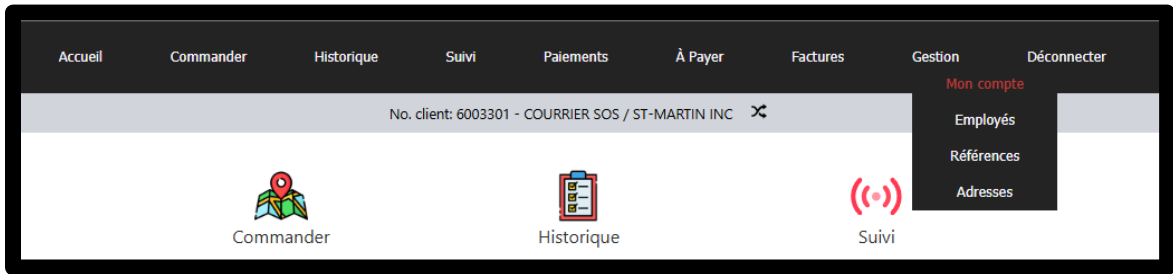

1. Access your shopify admin page (<https://admin.shopify.com/store/my-store>)
2. Click on Settings

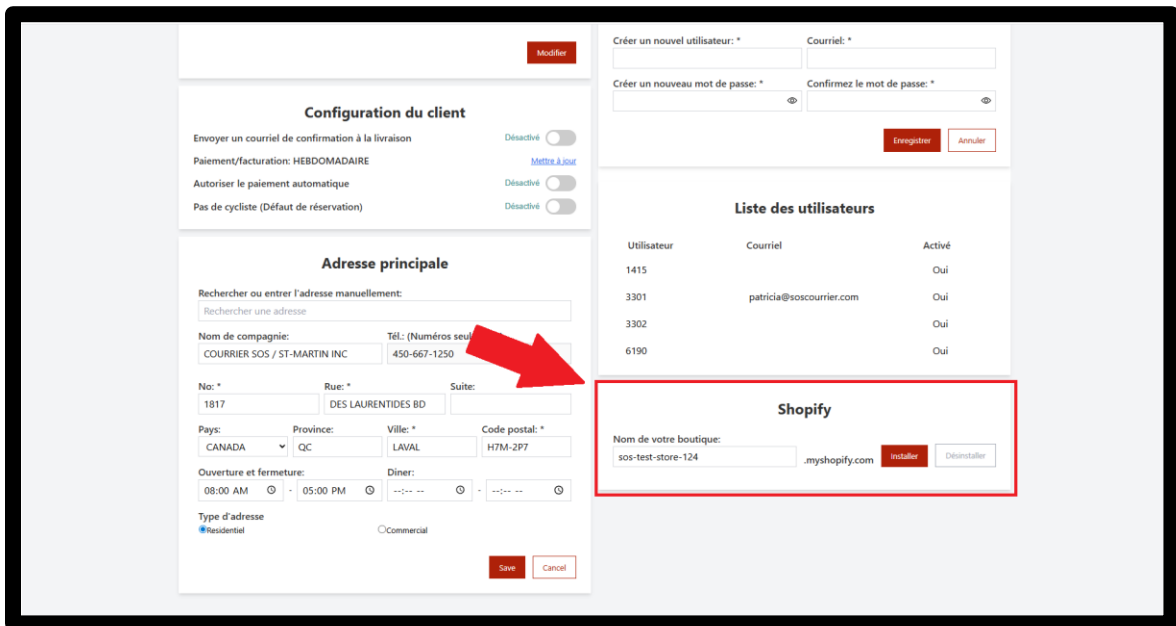

3. Copy your Shopify unique identifier

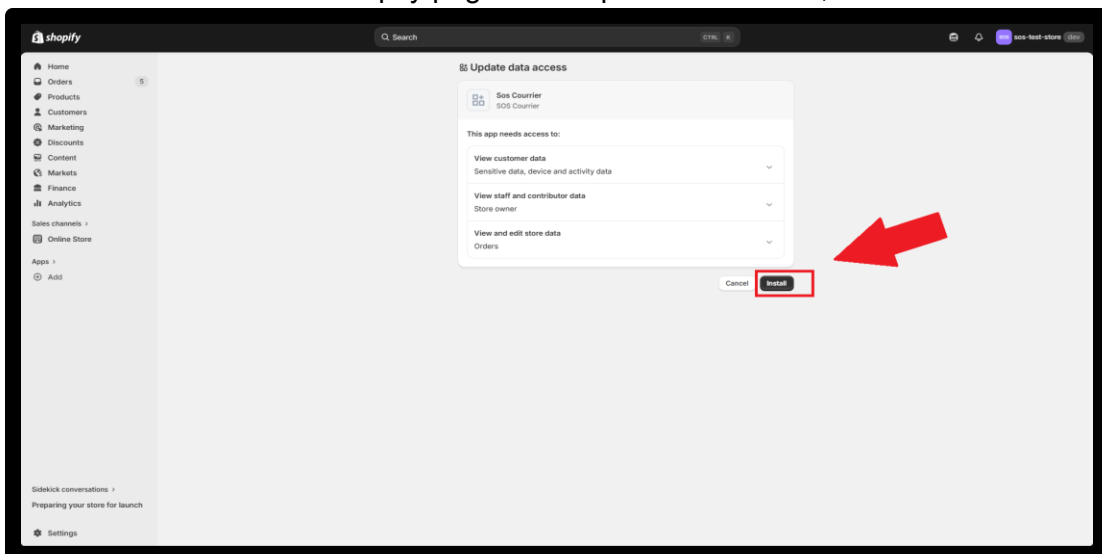

4. Access your webcall account (<https://web.soscourrier.ca/reservation>)
5. Access menu Manage > My Account / Gestion > Mon Compte

6. Go to Shopify section and put your Shopify shop identifier on “shop-name” and click on Install

7. You will be redirected to Shopify page to accept the installation, click on install:

8. You have successfully integrated your Shopify shop to webcall

```
{
  "message": "Store sos-test-store-124.myshopify.com connected and token saved successfully."
}
```

PS.: If an error message is shown, please contact the support.

9. You can close this page now
10. On my account page you can see the configuration, uninstall the integration and visualize log of integration, and Shopify data sent on each integration
